Dear Ebria:

You will receive with this letter 28 works by Toulouse-Lautrec for your April exhibition. I wrote on the back of the mats everything what I know about these works. Unfortunately, I lost the description of the most valuable lithograph, "Ellis". It may interest you to know that this lithograph was auctioned in Paris a few weeks ago and brought a price of \$2,400.00. It will also interest you that La Revue Blanche was auctioned at Goldenberg's here in the city for \$375.00.

I enclose in this letter two lists and I would like you to sign one and give this one to the truck driver who will deliver the shipment.

Best regards.

Sincerely,

Fred Grunwald
