

Hammer museum!

9-15-16

Dear Hammer museum.

Thank you for inviting us to your art museum. I learned how the artist feel about what they do. I remember the exhibit with the clay bricks made out of manure. I think the artist felt angry about the chair with the cactus growing out of the ~~the~~ cushion. ~~No~~ I hope you ~~will~~ invite us to the museum again so I can learn what the spinning chairs are made out of.

Sincerely  
Carlos
